

Roman Rally - for nursery schools -

Guideline for nursery school teachers

Three parts of each of the six stations of the Roman Trail have been mixed up. The children's task is to link the parts belonging to the same stage.

Simply print the document in colour and give each child a robust pad and a pen. The winner is who is the first to connect all pictures correctly.

The solution can be found on our homepage directly below the Roman Rally.

Have fun with your group!
